

Courses and training – reThinkers

Education of volunteers		
<p>A crucial part of the volunteer programme is the continuous offer of further training. Training activities include among other things, courses in being a city host, managing volunteers, English classes, traffic officials, event management, merit tests (LifeBoats), information about and guided tours of Aarhus themed “Know your City”. Through these training activities, volunteers can broaden their horizons and gain further knowledge of subjects that might be relevant to their volunteering.</p>
